It should be an explicit summary of your presentation that states the research problem, the objectives, the methods used, and the major results and conclusions. Do not include bullets/lists or references in the abstract. Use only the SI units (eg. kg m^{-3} not as kg/m^3). Chemical formulae should be written in a standard form such as "K_2SO_4", not as "K2SO4". Use a zero before decimal points such as "0.45," not ".45." All scientific names should be italicized. Both genus and species names should be mentioned at the first appearance, and only the species name can be mentioned with the abbreviated genus name subsequently. All non-English terms should be italicized (e.g., *et al., viz., in vivo, in vitro, ad libitum, de novo, Hambanthota, Yala*) The abstract should be between 250 and 300 words long and justified. (Font: Cambria, 12) The use of non-standard or uncommon abbreviations and references should be avoided. Keywords should be given leaving one-line space below this text.
